DIVISION III

vs.

Defendant.

STATE'S DISCLOSURE OF BRADY MATERIAL

The State of Florida, pursuant to its obligation under *U.S. v. Brady*, discloses the following:

The monthly maintenance inspection on Intoxilyzer 8000 instrument, serial number 80-000760, was completed by Robert Stafford on March 23, 2010. On that date, the instrument was non-compliant due to operator error and the .05 alcohol sample being outside tolerance. The instrument was not taken out of service and FDLE was not notified. On March 24, 2010, the instrument was inspected again and was in full compliance. The instrument remained in service, passing all subsequent monthly maintenance inspections pursuant to Form 39 until June 29, 2010 when Department inspector Matthew Malhiot instructed the monthly maintenance inspector to take the instrument offline for further testing.

I HEREBY CERTIFY that a copy hereof has been furnished to the office of CAREY MELDON, 703 N. MAIN STREET, SUITE A, GAINESVILLE, FL, 32602 by this 6 day of June, 2010.
