No, nothing specific. Just trying to stay a little ahead of the defense's game.

They must ask for a public records request. I keep pertinent ones. Is there something specific you are thinking about?

**Subject:** E-mails

I remember you telling me that the defense can now retrieve the e-mails between us. Is there a way I can retrieve them as well? Up to now, I haven't been keeping/making a copy for myself and I need to refresh my memory about something that occurred in January that you and I talked about in e-mails.

Thanks,
